

## **MNACS League Operators:    Answers about MNACS Sanctioning:**

The MNACS is a non-profit organization. We are part of the National ACS Sanctioning body that provides the ACS National tournament in Las Vegas every year. This year ACS National tournament will be held at the Tropicana May 7 – 14, 2011. MNACS sanctioned players are also eligible to play in the Midwest ACS 8-Ball Championship in Riverside, Iowa, January 20-23, 2011.

And are now eligible to play in the three large Canadian tournaments put on by the CCS.

MNACS has joined up with the newly formed MPA. (Midwest Pool Players Association).

Which is owned and operated by our past President John Stich. The 2010 - 2011 seasons the MPA/MNACS state tournament will be held at, Treasure Island Casino during the week of March 17-20, 2011.

This way the casino will want to keep Pool tournaments at Treasure Island.

**This joint effort is in part to ensure the numbers are high.**

**MNACS is not part of the MPA; we are a separate entity!**

This joint venture should only be a one year venture!

MNACS will have to have the numbers to get a Casino tournament of our own!

**Which means we want more players to sanction with MNACS.**

**Why, To show the sponsoring casino we are a good business partner!**

By sanctioning with the MNACS you will not have to sanction MPA for the Treasure Island tournament, MNACS is going to add some additional money that will only be paid out to the MNACS players, who finish the highest in each division, if you are one of the top finishers sanctioned by MNACS you will not only do you get money from the \$25,000 tournament but you will also get some from additional Money from MNACS. The amount that we are going to pay out is, **depending on our numbers at TI!**

If you have any questions, please free to email us.
